

Zoë-Life – Blue Roof is an organisation focused on bringing wholeness to children, youth and families primarily within the South Durban Basin. Positively impacting their health and personal development, in turn empowers them to make a real change and developing tools that fill the gaps in the systems around them, helps to restore and strengthen their support networks. This happens through a youth-friendly Clinic with counselling facilities for children and teens, Youth Programmes covering career guidance, work readiness, after-school programmes (art, dance and sport), Maths and English homework support for Grades 5-9 and Youth training.
